accept accuracy)	300
Theodolites (Tree Minth, 000)	400
Throdoldtes (Type NUMBA CCC)	150
Teletop (Acedetic distance meter)	500
Deable engle prim (small head instrument)	2,000

- Present planning for the 1956 production program for the Geodetic Registion of WED Carl Zeiss, Jens, contemplates maintaining about the same overall production target figures, but with a heavier authoris on now theodelite production and a corresponding decrease in the production of levelling instruments.
- 3. Grandel (fmm) of the Geodetics Laboratory is working, with his staff on the development of a new model theodolite which they hope to have ready for more series production by early 1957. No specific technical data are as yet known about this new instrument.
